ASC ANALYSIS SUPPORT CONSTRUCT

WHAT IS THE ASC?

The ASC is a Framework, set up by Dstl to service the demand for analysis required by decision makers in all UK Defence & Security Domains.

It draws on the breadth of capabilities across Industry and Academia through an open Supply Chain.

Tasks can flow through the contract to members of the Supply Chain over a 3 year period, starting in July 2015.

WHO RUNS THE ASC?

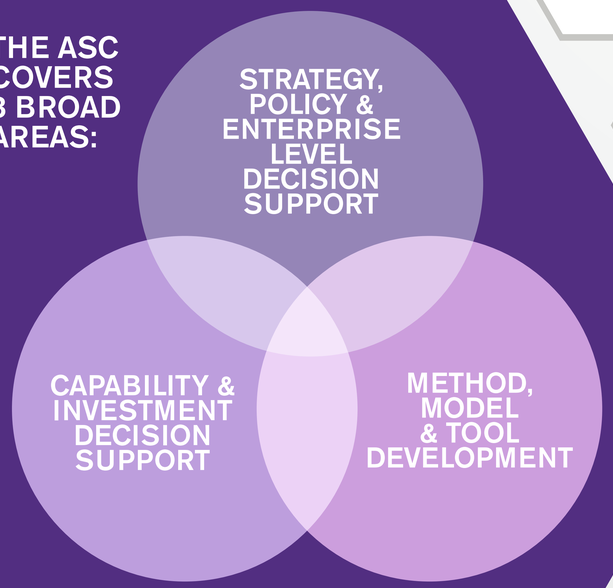
The prime contractor for the ASC is CORDA.

CORDA has over 30 years' experience of providing analysis and modelling to support decisions across Defence and UK Government.

As the prime contractor, CORDA is responsible for the delivery of agile, timely and effective analysis by building and engaging a robust Supply Chain.

CORDA is working with Technical Leads from NSC, Polaris, RED and Roke to deliver a coherent technical programme.

THE ASC COVERS 3 BROAD AREAS:



HOW TO GET INVOLVED

We are keen to hear from anyone interested in joining the **ASC Supply Chain**. For further details please contact Mike Tulip, ASC Programme Director, at **asc@corda.co.uk**
