

35th International Symposium on Military Operational Research (35 ISMOR)

17-20 July 2018

Royal Holloway, University of London, Egham, Surrey, TW10 0EX, UK

ISMOR is an annual international symposium sponsored by the UK Ministry of Defence and offering a unique opportunity to spend four days exploring the application of analysis to practical issues in defence and security with a wide range of colleagues from across the world.

- Network with defence professionals from across the globe
- Discover the latest defence analysis techniques through
 - Presentations about analysis applied to real-world defence and security problems
 - Multiple masterclasses and workshops from leading experts
 - A dynamic poster session
- Present your work in front of a respected audience

As well as inspiring experienced practitioners with new approaches and providing informal testing of ideas, ISMOR offers excellent development for early career analysts.

Themes for 2018 will include:

'Making every penny count' – covering issues of affordability and value-for-money

'Modelling for military operations' – what models are needed and how do we develop them?

'Data Analytics' – covering areas such as data science, 'Big Data' and advanced analytics

'Wargaming' – how can we use wargaming to support decision making?

Submit your abstract NOW for a paper or poster on any aspect of the application of analysis to defence and security, particularly those relating to the symposium themes.

Who should come to 35 ISMOR?

- Customers, practitioners and researchers

from

- Government departments
- The Armed Forces
- Industry
- Academia

To book your place and submit your abstract, please use the online registration facility at www.ismor.com. A range of pricing options including daily rates are available and have been held at 2015 levels with discounts available for early career analysts.
